This diagram shows an exploded perspective view of a mechanical assembly. At the top, a circular gear (106) with a central hub (268) is positioned above a smaller gear (118). The smaller gear (118) has a central shaft (122) and a mounting flange (123). Below these, a complex mechanical housing (125) is shown. The housing features a central opening (156) and a flange (127). A large, threaded cylindrical component (128) is attached to the bottom of the housing. The diagram illustrates the assembly of the gears onto the central shaft of the housing.

This diagram shows an exploded perspective view of a mechanical assembly. The components are labeled with reference numerals: 366 points to a bolt or screw at the top left; 72 points to a central rectangular component; 364 points to a bracket or housing on the right; and 394 points to a base or support structure at the bottom right. The assembly includes various gears, shafts, and structural frames.
